SUPERSTUDIO PIÙ / HALL31 / VIA TORTONA 27

MILANO DESIGN WEEK 2014

DRAGON

- Chandelier che si sviluppa in modo frattale / fino a 256 moduli collegabili per generare infinite nuove forme
- Effetti di luce digitali dinamici e brillanti
- L'App apprende la forma e permette di controllare gli effetti di luce e il comportamento di ogni singolo modulo

- Chandelier that grows fractal / connect modules till 256 and arrange new shapes
- Dynamic and sparkling digital light effects
- App learns your shape and let you control light effects and behaviours for every single module

P.A.C.O

- Speaker Bluetooth in cemento e legno armonico / per smartphone, tablet o laptop
- Il corpo di cemento aumenta la profondità dei bassi / il top in legno armonico dona morbidezza agli alti
- Interfaccia naturale / controlla la musica al movimento della mano

- Concrete+harmonic wood Bluetooth loudspeaker / connect your smartphone, tablet or laptop
- The concrete body enhances the deepness to bass / the harmonic wood board gives softness to treble
- Natural interface / just wave your hand on top and control the music
